EXP55

Color Expansion Module

The Yealink EXP55 Color Expansion Module for Yealink T7X/T8X IP phones is designed to expand the functional capability of your SIP phone to a whole new level. It features a large 5.5-inch color-screen LCD, giving you a vivid visual experience. In addition, it provides you with a simple user interface and advanced call-handling capabilities. For example, three pages of 26 flexible buttons shown on the display can be programmed up to 78 various features. The EXP55 will also extend the functionality of Yealink T7X/T8X IP phones, you can set the provided multifunctional line keys as BLF, speed dial, call forward, transfer, call park, call pickup, etc. The Yealink EXP55 Color Expansion Module is an ideal solution for receptionists, administrative assistants, and contact center workers, and gives you the ability to monitor contacts and manage a large volume of calls with ease.

Key Features and Benefits

- 5.5" 480 x 960-pixel color screen
- Color icons for a rich visual experience
- 26 physical keys on each page with dual-color LEDs
- Three independent control keys with illuminated LED for fast switching pages
- Supports up to 3 modules daisy chain
- Stand with 2 adjustable angles

User-friendly Structure Design

With a 5.5-inch color screen, the Yealink EXP55 expansion module is intended to bring a fresh visual experience and an easy operating experience for you. To ensure higher data transmission reliability and faster data refresh rate, the EXP55 expansion module can be directly connected to the Yealink T7X/T8X IP phone. Moreover, after the connection between the expansion module and the IP phone is established, the remaining USB port on the side of EXP55 can also be used to realize the phone's extended functions, for example, call recording via USB flash drive etc.

Intuitive Visualization

A 5.5-inch 480x960-pixel color screen greatly enriches your visual experience. The color icons for Dsskeys, the feature of Wallpaper and Screensaver, all of these offer you a new operating experience as well as allow you to customize the EXP55 in your own style. More than that, it has 3 independent control buttons with illuminated LEDs

that are used for fast switching to the corresponding page.

High Expansibility

The Yealink T7X /T8X IP phones can be fully equipped with up to three EXP55 Color Expansion Modules, while adding 234 additional buttons at most. Three pages of 26 flexible buttons with dual-color LED shown on the display can be programmed up to 78 various features for speed dialing, BLF/BLA, call forward, transfer, etc. Thus, it will help you effectively manage a high volume of concurrent calls, effortlessly monitor calls, and greatly boost personal productivity
