kuando.me BUSYLIGHT

KEEP CUSTOMERS **HAPPY WHEN EMPLOYEES HEAR AND ANSWER THEIR CALLS**

* FUNCTIONS MAY VARY DEPENDING ON YOUR PLATFORM.

With a ringer and notifier, your company will increase the quality of customer service:

- Shorter reply time - audio ringer and pulsing light display to indicate an incoming call
- Flash notifier for missed calls – quicker response time for missed calls
- Reply to IM's faster - flash notifier and sound for incoming messages

kuando Busylight is easy for anyone - from IT experts to Office Managers and Support Teams:

- Mass configuration
- Built-in speakers for Busylight only – no disruptive PC sounds or alerts
- No need for user configuration on the PC

kuando.me BUSYLIGHT

Develop your **own application** for your Busylight

Plenom offers a variety of SDK´s/API´s, so you can develop your own application and make the Busylight work with different solutions. Here is the list of our current offerings, but please let us know if you have ideas for things that are currently not available.

.Net **SDK**

.net SDK

The SDK enables .NET developers to use C++, C#, or Visual Basic to create applications for Busylight UC. The SDK includes a DLL file and documentation. Extract the zip file and run the index.html file.

JavaScript **SDK**

JavaScript SDK

Plenom supports JavaScript as a programming language for using the Busylight.
The first available package is the Busylight for Google Chrome SDK+Sample.It contains a Busylight JavaScript library and a Google Chrome App as an example for how to use the Busylight with JavaScript. The Chrome App will run on all supported Chrome platforms, including Chrome OS.

USB **API**

USB API

For those who need to program the Busylight on USB level.

HTTP

The kuando HTTP interface options provide more ways to integrate with kuando Busylights. Applications can now control Busylights with HTTP requests.

In Addition To

we have samples for: **LINUX AND ANDROID**

kuandoHUB - extra software:

- Make presence reliable by connecting it with more than one platform
- Make it connect with Outlook and receive notifications (sound or/and light)
- Use its pomodoro-function (sound and/or light) to work effectively
- Control the light via hotkeys
- Integrate your own solution with HTTP

kuando Busylight

Two models

Alpha:
- #15306 – EAN 5707064153066
- Round - 4 3/8 x 1/2 in | 10 .5 x 1.6 cm
